Dear Dr. Cvjetanovic:

We would of course be happy to have Dr. Bhaskaran visit our department for a day (preferably not April 30) during the interval suggested. I doubt there would be any justification for more time than this among our own group; however, in this vicinity there are many other important targets and we would be glad to direct him to these possibilities. With this understanding we would be happy to receive Dr. Bhaskaran for the suggested period.

Sincerely yours,

Joshua Lederberg
Professor of Genetics
